BRAIN RESEARCH

VOL. 678 NOS. 1,2 **CONTENTS** **24 APRIL 1995**

Cited in Biological Abstracts (BIOSIS) – Chem. Abstracts – Index Medicus (MEDLINE) – Current Contents (Life Sci.) – Excerpta Medica (EMBASE) – Psychological Abstracts (PsycINFO) – Pascal et Francis (INIST-CNRS) – RIS (Reference Update) – Current Awareness in Biological Science (CABS)

Guidelines for the submission of manuscripts v

Announcing a New Look! vii

Announcement from the Publisher viii

Research reports

Avian neurosteroids. I. Pregnenolone biosynthesis in the quail brain
K. Tsutsui and T. Yamazaki (Japan) 1

Avian neurosteroids. II. Localization of a cytochrome P450scc-like substance in the quail brain
M. Usui, T. Yamazaki, S. Kominami and K. Tsutsui (Japan) 10

Preservation of autoregulatory cerebral vasodilator responses to hypotension after inhibition of nitric oxide synthesis
S. Takahashi, M. Cook, J. Jehle, C. Kennedy and L. Sokoloff (USA) 21

Early cytoskeletal changes as shown by Alz-50 are not accompanied by decreased neuronal activity
A. Salehi, J.A.P. Van de Nes, M.A. Hofman, N.K. Gonatas and D.F. Swaab (The Netherlands, Iran, USA) 29

Effect of capsaicin on micturition and associated reflexes in chronic spinal rats
C.-L. Cheng, C.-P. Ma and W.C. De Groat (Taiwan, ROC, USA) 40

Developmental switch in the hippocampal serotonin receptor linked to phosphoinositide hydrolysis
J. Ike, H. Canton and E. Sanders-Bush (USA) 49

Müller cell survival and proliferation in response to medium conditioned by the retinal pigment epithelium
C.D. Jaynes and J.E. Turner (USA) 55

Longitudinal variation in cell density and mossy fiber reorganization in the dentate gyrus from temporal lobe epileptic patients
L.M. Masukawa, W.M. O'Connor, J. Lynott, L.J. Burdette, K. Uruno, P. McGonigle and M.J. O'Connor (USA) 65

Expression of the conditioned NK cell activity is β-endorphin dependent
C.-M. Hsueh, S.-F. Chen, V.K. Ghanta and R.N. Hiramoto (Taiwan, R.O.C., USA) 76

Age-related alterations in energy metabolism contribute to the increased vulnerability of the aging brain to anoxic damage
E.L. Roberts, Jr. and C.-P. Chih (USA) 83

Cadmium chloride ($CdCl_2$)-induced metallothionein (MT) expression in neonatal rat primary astrocyte cultures
L. Rising, D. Vitarella, H.K. Kimelberg and M. Aschner (USA) 91

Developmentally-regulated lectin binding in the embryonic mouse telencephalon
N.A. Flaris, K.S. Shindler, P.T. Kotzbauer, P. Chand, C.P. Ludwig, A.D. Konstantinidou and K.A. Roth (USA) 99

2,3-Butanedione monoxime protects mice against the convulsant effect of picrotoxin by facilitating GABA-activated currents
T. Brightman, J.-H. Ye, E. Ortiz-Jimenez, E.J. Flynn, W.-H. Wu and J.J. McArdle (USA) 110

Theta-like rhythm in depth EEG activity of hypothalamic areas during spontaneous or electrically induced locomotion in the rat
U. Sławińska and S. Kasicki (Poland) 117

Fos induction in the medullary dorsal horn and C1 segment of the spinal cord by acute inflammation in aged rats
K. Iwata, K. Kanda, Y. Tsuboi, K. Kitajima and R. Sumino (Japan) 127

Properties of peripherally induced persistent hindlimb flexion in rat: involvement of *N*-methyl-D-aspartate receptors and capsaicin-sensitive afferents
M.F. Anderson and B.J. Winterson (USA) 140

Temporal response and effects of excitatory amino acid antagonism on microtubule-associated protein 2 immunoreactivity following experimental brain injury in rats
R.R. Hicks, D.H. Smith and T.K. McIntosh (USA) 151

Reduction of AMPA-selective glutamate receptor subunits in the entorhinal cortex of patients with Alzheimer's disease pathology: a biochemical study
R.P. Yasuda, M.D. Ikonomovic, R. Sheffield, R.T. Rubin, B.B. Wolfe and D.M. Armstrong (USA) 161

Reductions in body weight following chronic central opioid receptor subtype antagonists during development of dietary obesity in rats
J.L. Cole, L. Leventhal, G.W. Pasternak, W.D. Bowen and R.J. Bodnar (USA) 168

The spatiotemporal organization of auditory, visual, and auditory-visual evoked potentials in rat cortex
D.S. Barth, N. Goldberg, B. Brett and S. Di (USA) 177

The action of 5-HT on calcium-dependent potassium channels and on the spinal locomotor network in lamprey is mediated by 5-HT_{1A}-like receptors
M. Wikström, R. Hill, J. Hellgren and S. Grillner (Sweden) 191

(contents continued on p. 272)

0006-8993(19950424)678:1;1-A

(contents continued)

HIV-1 coat protein gp120-induced increases in levels of intrasynaptosomal calcium
A. Nath, R.A. Padua and J.D. Geiger (Canada) 200
Modulation of corticotropin-releasing hormone stimulated cyclic adenosine monophosphate production by brain cells
L.P. Kapcala and G. Aguilera (USA) 207
Mixture suppression without inhibition for binary mixtures from whole cell patch clamp studies of in situ olfactory receptor neurons of the spiny lobster
T.W. Simon and C.D. Derby (USA) 213
Parametric analysis of the effects of cocaine and cocaine pretreatment on dopamine release in the nucleus accumbens measured by fast cyclic voltammetry
J.E.G. Williams, W. Wieczorek, P. Willner and Z.L. Kruk (UK) 225
Postnatal maturation of layer V pyramidal neurons in the human prefrontal cortex. A quantitative Golgi analysis
M.J.Th. Koenderink and H.B.M. Uylings (The Netherlands) 233
The influence of Bay K 8644 treatment on (±)-epibatidine-induced analgesia
A.W. Bannon, K.L. Gunther, M.W. Decker and S.P. Arneric (USA) 244
Progesterone, but not estrogen, modulates the cAMP system mediated ir-β-endorphin secretion and POMC mRNA expression from rat hypothalamic cells in culture
Z. Yang and A.T. Lim (Australia) 251
Effect of food deprivation on glutathione and amino acid levels in brain and liver of young and aged rats
M. Benuck, M. Banay-Schwartz, T. DeGuzman and A. Lajtha (USA) 259

Short communication

Inhibitors of lipid peroxidation protect cultured neurons against cyanide-induced injury
U. Müller and J. Krieglstein (Germany) 265

Corrigendum

Circulating adrenal hormones are not necessary for the development of sensitization to the psychomotor activating effects of amphetamine (Brain Res. 673 (1995) 13–24) (BRES 10891)
A. Badiani, M.I. Morano, H. Akil and T.E. Robinson 269
